**Empowering Educators.
Elevating Outcomes.**

Who We Are

SIL is a collaborative initiative between the El Dorado County Office of Education, El Dorado County SELPA, and Riverside County SELPA. Our statewide team brings deep expertise in special education, continuous improvement, systems change, data best practices, and root cause analysis. We partner with educators across California to turn complex challenges into meaningful progress.

How We Support California Educators

We equip California educators with practical tools, professional learning, and coaching to drive sustainable improvement for students with disabilities.

Our tiered approach ensures the right level of support to meet each team's needs:

Universal Supports to Spread Proven Strategies

Access on-demand tools, guides, and learning resources that help educators apply effective improvement practices. All resources are publicly available at <https://systemimprovement.org/>.

Targeted Supports to Accelerate Improvement

Participate in Networked Learning communities, workshops, and consultation designed to help partners apply continuous improvement methods and strengthen outcomes for students with disabilities. To request support, contact us at info@systemimprovement.org.

Intensive Supports to Transform Systems

Engage in multi-year partnerships that provide direct technical assistance, coaching, and consultation for LEAs identified by the California Department of Education.

Our Impact

37,000+

students with disabilities positively impacted, including:

19% increase in IEP goal rate

10% increase in graduation rate

32% decrease in chronic absenteeism

400+

Districts, Charter Schools, County Offices of Education, and SELPAs supported
