Effective Data Visualization for Education Improvement

with Dr. Stephanie Evergreen

In this workshop, you'll **learn how to cut through the massive wall of data** we often see in educational environments and identify a curated, less intimidating subset of the data.

Then you'll **learn how to use pivot tables to transform that small subset of data into meaningful charts and graphs** for exploration with your data teams. We will pull together several graphs into a static one-page handout and an interactive dashboard.

<p>Sacramento November 29th Time: 8:30a.m. - 3:30p.m.</p> <p>Click Here to Register</p>	<p>Monrovia December 1st Time: 8:30a.m. - 3:30p.m.</p> <p>Click Here to Register</p>
<p>Napa Valley March 14th Time: 8:30a.m. - 3:30p.m.</p> <p>Click Here to Register</p>	<p>Temecula March 16th Time: 8:30a.m. - 3:30p.m.</p> <p>Click Here to Register</p>

Bring your LEA datasets to create real-time personalized experience and **leave the workshop with high-quality data visualizations**. Data visualization will support equity, bringing meaningful conversions and participation to the forefront of your school improvement journey.

TRAINING DAYS

November 29th - Sacramento, CA | December 1st - Monrovia, CA
March 14th - Napa Valley, CA | March 16th - Temecula, CA
