

Root Cause Analysis for IEP Technical Assistance

Audience:

LEAs who have been identified as being eligible for technical assistance by CDE due to overdue IEPs/initials AND have not made improvements in this area.

Have you been identified for Technical Assistance for IEP Compliance?

If so, we encourage you to join us for a half day professional learning opportunity that will introduce participants to approaches for engaging in deep, thoughtful, and multi-faceted root cause analysis related to overdue IEPs. In this virtual professional learning opportunity, participants will be introduced to the process of root cause analysis and provided with key information that will empower them to develop improvement plans resulting in better outcomes for students with disabilities.

This training is brought to you by the IEP Technical Assistance Grant in partnership with the System Improvement Leads.

In this half-day learning opportunity, participants will:

- Explore the who, how, what, where, and why related to the non-compliance with IEPs through hands-on activities and practice with key data tools and resources.

6/08/22 | 12:30pm - 4pm
